

RESOLUTION NO. 82-43

RESOLUTION ADOPTING THE SAN JOAQUIN COUNTY 1982
AIR QUALITY MANAGEMENT PLAN

WHEREAS, the San Joaquin County Board of Supervisors has been designated by the U.S. Environmental Protection Agency (EPA) and the California Air Resources Board (ARB) to prepare an air quality plan and program for the San Joaquin County non-attainment area, included as Exhibit "A" to this Resolution; and

WHEREAS, the San Joaquin County Board of Supervisors has prepared an air quality plan which conforms to the requirements of the Clean Air Act, as amended, for controlling emissions that cause violation of the national ambient air quality standards for ozone and carbon monoxide in the San Joaquin County non-attainment area; and

WHEREAS, the City Council of the City of Lodi has reviewed the San Joaquin County 1982 Air Quality Management Plan; and

WHEREAS, EPA and State policy is that significant air quality management agencies named in the air quality plan must indicate the commitment to implement the Air Quality Management Plan before the EPA and ARB can approve and certify the air quality plan; and

WHEREAS, the City of Lodi is a significant management agency for the purpose of implementing a portion of the Air Quality Management Plan; and

WHEREAS, the Clean Air Act requires the identification and commitment of necessary resources to implement the Air Quality Management Plan;

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Lodi approves and adopts the Air Quality Management Plan, save that Section dealing with pesticides, and commits itself to the implementation of those measures identified and described in Exhibit "B"; and

BE IT FURTHER RESOLVED that the City Council of the City of Lodi agrees to proceed with a good faith effort to implement those measures identified in Exhibit "B", save that Section dealing with pesticides; and

BE IT FURTHER RESOLVED that the City Council of the City of Lodi commits itself to implement measures as scheduled and using funding sources as identified in Exhibit "B", save

that Section dealing with pesticides. Recognizing, however, that the availability of necessary funding may depend on the funding programs or processes of various State and Federal agencies, the City of Lodi agrees to consider amendments to the Air Quality Management Plan, if necessary, to modify the funding or schedules of implementation actions. It is agreed that such modifications will not affect the maintenance of reasonable further progress as defined in the plan; and

BE IT FURTHER RESOLVED that the City Council of the City of Lodi will consider modification of adopted measures and/or adoption of additional measures, as appropriate, during the continuing planning process if implementation does not achieve "reasonable further progress" in reducing emissions, as required by the Clean Air Act; and

BE IT FURTHER RESOLVED that the staff of the City of Lodi will cooperate with San Joaquin County air quality planning staff to develop a procedure for determining the consistency of future development proposals with the air Quality Management Plan. This consistency determination procedure will be based upon the framework described in Section VII-C of the Air Quality Management Plan; and

BE IT FURTHER RESOLVED that the City of Lodi commits itself to continued participation in the continuing air quality planning program; and

BE IT FINALLY RESOLVED that this resolution is entered into on the condition that the City of Lodi portion of the Air Quality Management Plan will be certified without change by the State.

On a motion by Councilman Pinkerton, seconded by Mayor Pro Tempore Murphy, the foregoing resolution was passed and adopted by the City Council of the City of Lodi, State of California, at a regular meeting thereof this 5th day of May, 1982, by the following vote, to wit:

Ayes: Council Members - Olson, Murphy, Pinkerton,
Snider and Reid

Noes: Council Members - None

Absent: Council Members - None

ALICE M. REIMCHE
City Clerk
